AGENDA ITEMS

1. Bryon Doerr informed us of his care program for hanging baskets, downtown planters, etc. Everything looks spectacular and we so appreciate his and the crew's diligence in watering, fertilizing, caring for all the plants.
We felt plants were in good condition when arrived from Bultema. Only complaint was in welcome planters. Too many requests were not met but had too many substitutions or wrong plants. Need to talk to Diane about how to rectify that.
2. When HBC members notify Public Works that they have planted their planters and need watering, or need attention through the season, please contact Lisa Syren at Public Works 708-206-2906 or lsyren@homewoodil.gov
3. Beautification Awards process of choosing and confirming was reviewed, especially for new members. Mentioned that maps could be better and we'd like to receive previous winner and HM lists by Area if possible for use in current year's selections.
4. Scarecrow project was only touched on. We committed to manning a booth at Aug. 12 Farmers Market, Aug. 19 Block Party and the contest on Fall Fest Sept. 16. Details to be discussed at August, 2017 meeting.
5. Quick discussion about downtown maintenance - don't hesitate to cut back plants, etc. Vivian brought printed lists of the calendar. Everyone doing some weeding, etc. will keep it all good.
